# INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Rhode Island Public Transit Authority

We have audited the accompanying basic financial statements of the Rhode Island Public Transit Authority, a component unit of the State of Rhode Island and Providence Plantations (State), as of June 30, 2004 as listed in the table of contents. These basic financial statements are the responsibility of the Rhode Island Public Transit Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the Rhode Island Public Transit Authority, as of June 30, 2004 and the respective changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 10 to the financial statements, the Authority received operating assistance including fare subsidies from the State for the fiscal year ending June 30, 2004 in the amount of \$30,686,644. The amount of such assistance indicates that the Authority may require continued assistance in order to operate at its present level.

In accordance with Government Auditing Standards we have also issued our report dated September 16, 2004 on our consideration of the Rhode Island Public Transit Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contacts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole.

The Management's Discussion and Analysis on Pages 3 - 7 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit this information and express no opinion thereon. The other supplementary information on Pages 25 - 34 is presented for purposes of additional analysis and is not a required part of the basic financial statements of Rhode Island Public Transit Authority. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, is fairly presented, in all material respects, in relation to the basic financial statements taken as a whole.

# Understanding the Authority's Financial Statements

The Authority is a component unit of the State of Rhode Island and Providence Plantations (State), accounted for as an enterprise fund, which reports all assets and liabilities using the accrual basis of accounting much like a private business entity. In accordance with generally accepted accounting principles, this report consists of a series of financial statements, along with explanatory notes to the financial statements and supplementary schedules.

The financial statements include a Statement of Net Assets; Statement of Revenues, Expenses, and Changes in Fund Net Assets: Statement of Cash Flows; and notes to the financial statements.

The *Statement of Net Assets* presents the financial position of the Authority on the accrual basis of accounting. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

All the current years' revenue and expenses are accounted for in the *Statement of Revenues, Expenses and Changes in Net Assets*. This statement reports the current year's operating revenues and expenses and non-operating revenue and expenses for the Authority.

The *Statement of Cash Flows* provides information about the changes in cash and cash equivalents, resulting from operational, financing and, investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earning event, when an obligation arises, or depreciation of assets.

The financial statements immediately follow this discussion and analysis by management and are designed to highlight the Authority's net assets and changes to those assets resulting from Authority's operations.

The FY 2004 revenue reported as operating revenue, non-operating revenue and transfers from the state increased 4.1% or \$2,748,668 over the prior year. This increase was the result of receiving additional passenger revenue through the U-Pass program and additional revenue in support of the RIte Care program. Revenue received through capital contributions increased by 52.7% or \$3.2 million from the prior year. The Authority's operating and non-operating expenses totaled \$80,435,505 for FY 2004 as compared to \$75,393,427 for FY 2003. This reflects an increase of 6.7% over the prior year. The growth is a result of expense increases in fringe benefits, fuel, Americans with Disability Act program cost, Paratransit operations costs and depreciation

During FY 2004, The Authority committed to the purchase of 24 Orion buses scheduled for delivery in the Spring of 2004. Due to production delays, the buses were delivered during the Summer of 2004 and will be included in the FY 2005 capital purchases. Additionally the Authority is preparing to go out to bid for replacement of Paratransit vehicles for the RIde program. These vehicles are expected to be delivered by the Summer of 2005.

# Economic Factors and Next Year's Budget

The Authority's mission is to provide safe, reliable and cost effective transit service with a skilled team of professionals responsive to our customers, the environment, and committed to transit excellence. To accomplish this, the Authority must continuously assess its operational functions, financial capacity and products and services provided. Currently, the State of Rhode Island is projecting a budget deficit that will also affect the Authority's current year budget development.

The Rhode Island Public Expenditure Council (RIPEC) issued a report that focused on the funding crisis facing transportation in Rhode Island. This report makes several recommendations for the current fiscal year as well as suggests some long-term funding solutions.

The following factors were considered in setting the Authority's FY 2005 budget:

- Service reductions are being planned to close the budget gap of \$1.9 million for FY 2005.
- Amount of federal funds appropriated for operating and capital purposes. FYE 2003 was the final year of TEA 21, a six-year federal appropriation act, which established guaranteed levels of funding for transit agencies nationwide. As of September 2004 there has been no reauthorization legislation on new appropriation levels and the amount of the federal transit funding guarantees are uncertain at this time.

- □ State gasoline tax revenue available for operating purposes. For FY 2005, the yield from the gasoline tax is expected to remain at approximately the same level that was in place over the previous fiscal year, however the amount of gasoline tax revenue transferred to the Authority is being reduced in lieu of additional revenue payments from the RIte Care program. All but two cents of the thirty cents of gasoline tax has been distributed for transportation purposes, either to the Authority or to the Rhode Island Department of Transportation.
- □ Revenue from state agencies to subsidize policy driven transit travel programs. This program provides payment for free and reduced RIdes for senior citizens and the disabled population. Additionally, the Authority provides the transportation benefit for the states RIte Care program.
- Passenger revenue anticipated which includes increases in pass product costs and new pass product programs such as the U-Pass program. The U-Pass program allows university students access to all transportation routes by simply displaying their university identification card.
- □ Cost increases associated with employee contractual contract and health benefit increases. Employee wages and associated fringe benefits made up approximately 70% of the Authority's annual budget. Two of the Authority's labor contracts have been resolved either through negotiation or through binding arbitration, which includes a retro payment of wages. One labor contract, which expired December 31, 2002, has not been resolved yet.
- □ Costs associated with increased fuel prices. The Authority consumes 2.5 million gallons of fuel annually. The budgeted fuel cost for FY 2005 increased 23.6% over the previous fiscal year.
- Americans with Disability Act. The cost associated with this unfunded federally mandated program is projected to increase 10% over the prior fiscal year.

# NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# 1. ORGANIZATION

The Rhode Island Public Transit Authority (the Authority) is a body corporate and politic of the State of Rhode Island and Providence Plantations created by Chapter 210, Public Laws of Rhode Island, 1974, as amended. Its purpose is to take over any mass motor bus transportation system if the system has previously filed a petition to discontinue its service with the State Public Utilities Administrator, and further, if the Authority determines it is in the public interest to continue such service. The Authority has no stockholders.

On July 1, 1976, the Authority, in accordance with its purpose as stated above, acquired the property and assets of the United Transit Company (owner and operator of the public transportation system in Providence-Pawtucket Metropolitan area of the state) through the issuance of \$3,200,000 of revenue bonds designated "Rhode Island Public Transit Authority Revenue Bonds, Series 1976".

The powers of the Authority permit it to pledge its assets to the Federal government or any of its agencies.

On July 18, 1972, the Authority acquired the operating rights over intricate routes in Woonsocket for \$3,500.

On May 2, 1974 the Authority acquired the operating assets of Transit Line, Inc., which serviced the Newport-Middletown urban area, for a total purchase price of \$76,931. Federal and State grants were received for this acquisition.

Legislation in 1977 provided that the Authority "shall be deemed an instrumentality and political subdivision of the State".

On March 9, 1979, the Authority entered into an agreement with ABC Bus Lines, Inc. and acquired certain of the company's operating assets and rights to intrastate routes. The total purchase price of \$185,000 was financed by Federal and State capital grants.

On September 7, 1979, the Authority entered into an agreement with Bonanza Bus Lines, Inc. and acquired certain of the company's operating assets and rights to intrastate routes. The total purchase price of \$175,000 was financed by Federal and State capital grants.

The Authority is a component entity of the State of Rhode Island for financial reporting purposes and as such, the financial statements of the Authority will be included in the State of Rhode Island's Annual Financial Report.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# Basis of Presentation

The basic financial statements of the Authority are maintained in accordance with the principles of proprietary fund accounting utilizing the accrual basis. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

# NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# Basis of Presentation (Continued)

The Corporation has elected not to apply Financial Accounting Standards Boards statements and interpretations, accounting principles, board opinions, and Accounting Research Bulletins of the committee of accounting procedures issued after November 30, 1989.

# Recently Issued Accounting Standards

The Authority has implemented GASB Statement No. 39 – Determining Whether Certain Organizations are Component Units – an Amendment of GASB Statement No. 14. The adoption of this Statement did not have an effect on the Authority's financial statements or results of operations.

The Authority will adopt the following new accounting pronouncements in future years:

- ✓ GASB Statement No. 40 Deposits and Investment Risk Disclosures, effective for the Authority's fiscal year ending June 30, 2005.
- ✓ GASB Statement No. 42 Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, effective for the Authority's fiscal year ending June 30, 2006.
- ✓ GASB Statement No. 45 Accounting and Financial Reporting by Employees for Postemployment Benefits Other Than Pensions, effective for the Authority's fiscal year ending June 30, 2008.

The impact of these pronouncements on the Authority's financial statements has not been determined.

# Federal and State Grants

The Federal and State government have made various capital grants available to the Authority for the acquisition of public transit facilities, vehicles and equipment.

Prior to October 1, 2001, Federal operating assistance grants under the Urban Mass Transportation Act of 1974, as amended, were administered through the State of Rhode Island or one of its agencies and are included in operating transfers as the related expenses were incurred. Beginning October 1, 2001, the Authority became the designated grant recipient of all new Federal Transit funds, thereby receiving the federal money directly.

# Materials and Supplies of Inventory

Inventories consist of spare parts, supplies and fuel oil and are stated at the lower of cost or market.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is computed on the straight-line basis using the half-year convention over the estimated useful lives of respective assets. Depreciation expense is not provided for assets under construction. Useful life of assets are as follows:

| Buildings and building improvements | 15-30 years |
|-------------------------------------|-------------|
| Buses                               | 10-12 years |
| Other equipment                     | 4-20 years  |

# Operating Revenues and Expenses

The Authority's operating revenues and expenses consist of revenues earned and expenses incurred relating to the operation of the Authority. All other revenues and expenses are reported as nonoperating revenues and expenses.

# Compensated Absences

Vacation expense is accrued when earned by employees and reflects current rate of pay. Sick leave expense is recorded primarily when taken by employees.

### Income Taxes

Rhode Island Public Transit Authority is exempt from Federal and State income taxes.

### **Net Assets**

Net assets comprise the various net earnings from operating and non-operating revenues, expenses and contributions of capital. Net assets are classified in the following three components: invested in capital assets, net of related debt; restricted for capital activity and debt service; and unrestricted net assets. Invested in capital assets, net of related debt, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction and improvement of those assets; debt related to unspent proceeds or other restricted cash and investments is excluded from the determination. Restricted for capital activity and debt service consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates. Unrestricted consists of all other net assets not included in the above categories.

# NOTES TO FINANCIAL STATEMENTS JUNE 30. 2004

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Self Insurance

The Authority is self insured for workers' compensation claims, auto liability and property damage claims. Management believes that the accrual for self insurance claims is adequate to cover the ultimate liability arising from such claims. However, the recorded liability is based upon estimates of final settlement amounts, which may be more or less than the amount ultimately paid. The Authority has established a fund for self insurance as more fully described in Note 7.

The Authority has acquired an excess liability policy. This policy covers for bodily injury or property damage up to \$5,000,000 per occurrence after a retained limit of \$1,000,000 per occurrence.

# Cash and Cash Equivalents

For purposes of the statement of cash flows, the Authority considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

### **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### Advertising Costs

It is the Authority's policy to expense advertising costs as incurred. Advertising expense for fiscal years ended June 30, 2004 was \$278,509.

# 3. CASH DEPOSITS AND INVESTMENTS

# Cash Deposits

The carrying amount of the Authority's deposits, except for petty cash of \$1,100 at June 30, 2004 is \$1,974,039 and the bank balance was \$3,510,383. # 7. SELF INSURANCE

The Authority established an accident and casualty fund as of July 1, 1977 for the purpose of paying all insurance claims and related losses and expenses. This reserve fund is augmented annually by depositing interest income earned on all investments and insurance settlements into the Accident and Casualty fund.

The activity in the accident and casualty fund for fiscal years ended June 30, 2004:

| Balance at beginning of year     | \$619,449 |
|----------------------------------|-----------|
| Deposits:                        |           |
| Interest earnings on investments | 6,557     |
| Insurance settlement             | 45,686    |
| Balance at end of year           | \$671,692 |

Assets restricted at June 30, 2004 in the accident and casualty fund amounted to \$671,692.

It is the intention of the Authority to build this self-insurance fund to not less than \$5,000,000 to provide for excess insurance coverage in the event of a large claim or catastrophe. The Authority, with the concurrence of the Urban Mass Transportation Administration (UMTA) authorized at its meeting on August 25, 1980, the placement of \$250,000 of the accident and casualty fund in a special reserve for Workers' Compensation claims exclusively, to satisfy a requirement of the Rhode Island Department of Labor for an appropriate "bond in kind" for self-insurance under the Workers' Compensation Act. During fiscal year 1990, the State increased the special reserve requirement to \$800,000. For fiscal year 1991, the State revoked the asset special reserve requirement. The Authority transferred \$400,000 from the Workers Compensation Fund to operating fund during fiscal year 1991 as they were no longer required to maintain a reserve.

At June 30, 2004, the Authority obtained an independent evaluation of its self-insurance reserve for losses. The reserve for losses reflects the actuarial determined amount at the 75% confidence level.

The activity in the liability for self-insured claims for fiscal year ended June 30, 2004 are as follows:

| Amount of claims liabilities, beginning of year | \$5,535,203 |

# Claims and Legal Actions

The Authority is involved in a suit involving the rescinding of a contract by the Authority. The amount of a settlement, if any, is not presently determinable. As a result, no liability has been recorded in the financial statements.

During the ordinary course of its operations, the Authority is a party to various claims, legal actions and complaints. In the opinion of the Authority's management and legal counsel, these matters are not anticipated to have a material financial impact on the Authority.

### **Contract Commitments**

The Authority is committed under various contracts in the amount of \$6,235,574 at June 30, 2004.

### 9. POST RETIREMENT BENEFITS

The Authority provides certain health care and life insurance benefits to substantially all retired employees and their spouses. These benefits are provided through a group insurance policy that covers both active and retired employees. The Authority funds these post retirement benefits on a pay as you go basis. Premiums on the policies are merit-rated, based on claims paid during the prior year, and are expensed during the related policy year. The total cost of these benefits for 2004 was \$1,345,408. These benefits are provided as part of the employee's contract.

### 10. OPERATING TRANSFERS

State statute directs the Authority to generate sufficient revenues to pay all costs of operating and maintaining the transit system during each fiscal year. For fiscal year ended June 30, 2004, the State appropriated a total of six and one quarter cents of dedicated gas tax. For the fiscal year ending June 30, 2004, the Authority received \$30,686,644 from the dedicated gas tax as operating assistance in support of the transit system. The Authority anticipates receiving approximately \$29,875,000 in fiscal year ended June 30, 2005 from the State.

On May 22, 1998, the Congress passed the Transportation Equity Act for the 21st century (TEA 21) authorizing Federal transportation programs for the next six years. This act eliminated Federal funding for operating. However, TEA 21 expanded the definition of capital preventive maintenance allowing the use of federal capital funds to be applied towards preventative maintenance expenses. For fiscal year 2005, RIPTA anticipates using \$7,600,000 of Federal capital funds to offset preventive maintenance costs. Additionally, RIPTA expects to receive \$1,400,000 in Jobs Access/Reverse Commute Federal funds during fiscal year 2005.
