

DORRANCE STREET TRANSIT CENTER

Route Changes

To serve the new Dorrance Street Transit Center, RIPTA is making every effort to make the route changes as direct and intuitive as possible.

With some exceptions, most routes will not change significantly and will either be slightly shortened or lengthened, but will still operate on the same streets they always have.

RIPTA expects that schedules will maintain the same frequency, with minor timing adjustments.

All transfers currently capable of being made at Kennedy Plaza will be possible at the new transit center.

Due to the close proximity of the site to Kennedy Plaza, RIPTA expects no operational cost increases.

We encourage everyone to review this map and provide comments and suggestions about the proposed route circulation. Additional public hearings will be held in the future that will specifically address the route design.

Public Comments

Visit [RIPTA.com/TransitCenter](https://www.ripta.com/TransitCenter) to submit your comments.

[RIPTA.com/TransitCenter](https://www.ripta.com/TransitCenter) will be updated with FAQs throughout the public comment process.

Public Meeting Schedule:
