

IS VANPOOLING RIGHT FOR YOU?

YES! If the following is true...

- You would rather read, catch up on work, listen to your favorite music, podcasts, or simply nap on your commute.
- You would like to save big bucks by leaving your car at home and save thousands of miles on your vehicle odometer, repairs, wear and tear, etc.
- You would like to save even more money by using pre-tax dollars to pay for your commute.
- You hate sitting in traffic, driving in inclement weather, and other solo commuting headaches.
- Public transportation is not easily accessible to you.
- You would love to get picked up and dropped off at home or at a designated pick up point every day.
